

Fluid Carbon™

Agricultural Mineral

Guaranteed Analysis:

Total Nitrogen (N).....0.40%
 0.10% Ammoniacal Nitrogen
 0.30% Nitrate Nitrogen
Soluble Potash (K₂O)0.40%

Derivation:

Nitrogen and Potassium are derived from beef and chicken manure.

"ALSO CONTAINS NON-PLANT FOOD INGREDIENT"

1.00% Humic Acid derived from Leonardite

Storage:

Storage in a cone bottomed tank to facilitate agitation is recommended. When stored in a cone bottomed tank, agitate 10 minutes prior to shipment. When stored in a flat-bottomed tank, agitate 1 hour before shipment. Avoid air blast agitation as foaming will result. If foaming does occur through normal agitation, use Harcross Chemical AF10FG defoamer. Agitation is recommended once every month. Storage for longer than 12 months is not recommended.

Handling:

Follow appropriate safety procedures. Skin contact may cause temporary staining. In case of accidental exposure, flush with plenty of water. Product is nonhazardous.

Incompatibilities:

Do not exceed a 50 percent mix with N-P-K fertilizers or CAL PLUS unless diluted with sufficient amounts of water to ensure ease of mixing and application. Always jar test newly attempted mixes. Avoid strongly acidic conditions. Do not mix with Aqua Ammonia, Sulfuric Acid, Urea Sulfuric Acid, Phosphoric Acid or Soil Fumigants. No other known incompatibili-

ties.

Directions for Use:

Use 20-40 gallons per acre during the growing season, as needed; through the following combinations of applications. (see Directions for application). As the use of Fluid Carbon™ may affect crop nutrient response, timing and frequency of fertilizer applications should be based upon crop nutrition monitoring (tissue testing, post-harvest soil testing). Where warranted, adjust fertilizer rates and replace with a maximum of a 1:1 ratio of up to 15 gallons of Fluid Carbon™ per/acre/application.

Directions for application:

TURF GRASS (BROADCAST)

Spring and Fall Primary Inoculation

Cool season grass - 6-12 oz./1000 sq. feet

Warm season grass - 12-18 oz./1000 sq. feet

Summer maintenance

June, July, and Aug. - 3-6 oz./1000 sq. feet

TREE, SHRUB AND VINE (BASAL DRENCH)

Spring - 0.5-1.5 oz./0.25" of trunk diameter
